

# Presentation Primary Terenure

Ms. Carney's 3<sup>rd</sup> class 2012-2013

## CRAFTS

This year our teacher helped  us knit and sew lots of interesting things. We knit Funky Felix, butterflies, dude dolls, blankets and an owl called Hooting Henry. We sewed a pillow with lavender in it. We had lots of fun sewing and knitting. The knitting and crochet club knit a teddy bears picnic. Some of our things that we knit were in the teddy bears picnic too! We hope we can do lots more knitting and sewing next year.

## Computers Computers

We have been very busy in the computer room. We have done lots of projects and activities. We were able to insert pictures and format our writing. We did a power point about the Ancient Egyptians and learned about how they lived and died. We did a photo story about our school and added music to it. We learned how to do bullet points and to copy and paste. We

also wrote about our favourite wild animals and did a power point about our favourite breeds of dog. We had great fun!

## Art

We have been learning about different artists in 3<sup>rd</sup> Class. We have learned about Pablo Picasso and Andy Warhol. Pablo Picasso is famous for cubism. Andy Warhol was another artist we learned about. He was famous for pop art. Andy Warhol painted ordinary objects around him like Heinz ketchup and Campbell's soup. We made Giants because we were reading the BFG; we also made pictures of Vikings, Magic Carpets, Pirates, Our School, Cubism Faces, Space pictures, Desert paintings, Tutankhamen, Queen Nefertiti and lots lots more!! ☺☺

By: June, Rena, Alice, Caoimhe and Neasa

# Science

This year we learned about materials and how they can change. We had a chocolate day with a chocolate fountain. We also made rocky road and chocolate biscuit

cake. We called it Chocolate Science. During Science Week we did lots of fun activities like

rainbow milk, dissolving sugar cubes, and making strong shapes using cocktail sticks and marshmallows. The triangle was the strongest shape. We also learned about light and forces. We designed cars to show how things move.

## Trips

We went to the National Gallery this year. We saw lots of lovely pictures. One of our favourites was The Still Life With a Mandolin by Pablo Picasso. We saw a picture of the world ending. It was very realistic. We also saw Stella in a Flowered Hat, Military Manoeuvres, A portrait of Queen Charlotte of Spain, and A portrait of Charles Coote. We split into two groups. Our tour guides told us all about each picture. Then we went to Merrion Square. It was great fun! We saw a statue of Oscar Wilde. Then we went back to school.

We also went to the National Museum. We saw lots of Viking artefacts. We got to try on a Viking helmet. After the museum tour we went to Stephens Green for our lunch. It was a lovely sunny day and we had a great time.

## History

We have been learning a lot about history including the Famine, the Vikings, Ancient Egypt, the history of our school and the history of milk and farming. We really enjoyed learning about the famine. During the famine the potatoes got a disease called blight. The people were very poor so all they could afford was potatoes. They got very sick from blight and thousands died. Some escaped from Ireland to America on coffin ships. They were called coffin ships because lots of people died on them from disease and hunger. We heard about Annie Moore from Cork and we learned a song called Isle of Hope, Isle of Tears.

We really enjoyed learning about Ancient Egypt and how they built pyramids and made mummies.
